SOFTWARE ENGINEER

Full-Stack Developer with **2+ years of hands-on industry experience** in building and maintaining **scalable web applications** using **React.js, JavaScript, PHP (Laravel, CodeIgniter, Symfony), and MySQL.**
Strong focus on **frontend development with React.js / Full-Stack Roles,** API integrations, and cloud-based deployments. Experienced in **FinTech, ERP, and marketing automation platforms,** including payment gateway integrations, KYC workflows, and responsive UI development.

PROFESSIONAL EXPERIENCE

DataAegis Software Pvt Ltd - Bengaluru, India **January 2024 - Present**

software engineer

- Working as a full-stack developer on FinTech, ERP, and marketing automation platforms.
- Developed React.js based frontend components with focus on performance, usability, and responsive design.
- Integrated MomentPay payment gateway, implementing JavaScript event listeners to trigger secure payment flows using iframe-based checkout.
- Worked on backend modules using Laravel, CodeIgniter, and Symfony, building secure APIs and business logic.
- Collaborated with cross-functional teams to deliver production-ready features for enterprise clients.

Key Projects:

1. ePay – Merchant Onboarding & eKYC Platform (Laravel, MySQL, APIs)

- Developed merchant onboarding workflows with auto-generated KYC application numbers.
- Implemented AJAX-based verification flows for Trade License and compliance checks.
- Integrated OCR and compliance APIs (Google Vision, AWS Textract, Signzy, LSEG) for India & UAE regulations.
- Built dashboards to consolidate merchant data and improve operational visibility.

2. ERP-Ecom System – Omni Sales & Business Automation (CodeIgniter, MySQL, AJAX)

- Developed responsive UI components for configurable product grids.
- Implemented centralized default settings (language, currency, country) to simplify onboarding.
- Improved UI presentation using card-based product layouts for better user experience.

3. Aritic – B2B Marketing Automation Platform (Symfony, MySQL, Javascript)

- Enhanced frontend components for improved responsiveness and usability.
- Debugged and resolved JavaScript and PHP issues, improving platform stability and performance.

Jindal India Ltd - Howrah, India **July 2021 - December 2023**

Shift Engineer

- Gained experience in SAP systems, MIS reporting, and production planning.
- Led shift operations, team management, and quality inspections.

Indian Steel Corporation Ltd. - Gandhidham, India **July 2019 - June 2021**

Trainee Engineer

- Managed production processes, manpower planning, and material flow.
- Prepared MIS reports and monitored operational efficiency.

TECHNICAL SKILLS

Front-End

- React.js, JavaScript (ES6+), HTML5, CSS3
- Bootstrap, Responsive UI, AJAX

Back-End

- PHP (Laravel, CodeIgniter, Symfony)
- REST API Devlopment & Integration

Database

- MySQL

Cloud & Deployment

- Vercel (Cloud Hosting & Deployment)
- CI/CD (Git-based auto deployment)
- Environment Variables, Production Builds

Tools

- Git, Postman, VS Code, NetBeans, MS Excel

Domain Experience

- Payment Gateway Integrations, REST API Integration

PERSONAL / ACADEMIC PROJECTS

Weather Forecast Application

- Built a responsive weather forecasting web application using React.js.
- Integrated real-time weather data using third-party APIs.
- Deployed the application on Vercel cloud platform with CI/CD enabled.
- Utilized cloud hosting and CDN for fast and reliable performance.
- Live Demo: https://weather-app-lemon-pi.vercel.app/

EDUCATION

Indore Institute Of Science & Technology, RGPV, Indore **June 2015 - June 2019**

Bachelor of Engineering in Mechanical Engineering
